EXPERIENCE

Design Manager, Creative Services

Bain & Company, London | Current role: April 2023 - Present

Manager of x3 designers based in Warsaw, Poland. Responsibilities include; helping team members drive their professional development within the company, offer support and guidance with design projects and give feedback to encourage future skill growth, keep team members apprised of up-to-date work processes and on track with data input according to current team KPIs.

Creative lead & designer working on high-stakes presentations for both internal and external audiences, including design work for several external client pitches. Other design projects included working alongside our Innovation & Design team to create prototypes in Figma, utilising Adobe Firefly to create realistic mock-ups, designing posters for client workshops and working in Adobe InDesign to create editorial reports. All work created in either internal Bain branding, or external client branding depending on project brief.

Creative Services lead trainer where responsibilities include writing and running training sessions for both new consultants and support staff within the company.
